EXTINGUISH FIRE ANTS & GET CASH BACK!

Using Extinguish® Fire Ant Baits can be big for your investment.

When you purchase 100 lbs. or more of Extinguish® and/or Extinguish® Plus Fire Ant Baits, receive a $0.50-per-lb rebate! Valid on purchases made from January 1, 2019 – May 31, 2019*.

Extinguish® Professional Fire Ant Bait is for your bearing groves. It disrupts the normal growth and development of the fire ant colonies. When foraging worker ants take Extinguish® Fire Ant Bait to the queens, their ability to reproduce stops. When existing worker ants begin to die naturally, there are no new workers to replace them. Thus, the colony collapses.

Use Rate: 1–1.5 pounds per acre

Restricted Use Areas: None! Extinguish® Professional Fire Ant Bait can be applied wherever ants are found!

Extinguish® Plus Fire Ant Bait is for your non-bearing groves. It is a dual-acting bait that kills the workers while sterilizing the queens.

Use Rate: 1.5 pounds per acre

Use Areas: Approved for non-bearing groves**, pastures, turf, home and more.

EXTINGUISH Professional Fire Ant Bait

Extinguish PLUS

*Eligible for Florida Growers only. ** See label for complete list of states.
